

Announcing
A Special GreenScape Day Event
Right in Your Neighborhood!

Don't
Miss
It!

tools &
refreshments
provided

Lincoln Drive neighbors: all who live or have a business in the area are invited to put the finishing touches on an important project to improve the health of Spa Creek while bringing a beautiful street-end park to your community.

The South River Federation and the Spa Creek Conservancy have joined together to reduce the pollution flowing into Spa Creek and the Chesapeake Bay by building a rain garden on Lincoln Drive!

This is a private project by non-profit volunteer organizations. It is funded by the Chesapeake Bay Trust and the Eastern Petroleum Corporation, in partnership with the City of Annapolis. Thank you to DL Miller Backhoe Services for use of the property.

The heavy work has been done — we just need the neighborhood to come together and help do the gardening that will result in a lovely neighborhood park!

So get those gardening gloves out and join us!

WE NEED YOUR HELP!

The Mayor and local Aldermen have been invited to attend
